

## AT 25ex / 25 mm tweeter

**AlNiCo magnet**

### AT 25ex 25 mm alnico magnet tweeter

New AT 25ex is an our high class grade tweeter as the alternative model of the first one.

The long length alnico magnet located inside of the voice coil drives 25 mm Silk fabric dome newly deveoped.

And new AT 25ex adopts a cone shape flange, which could improve its sound diffusion ability.

As the results, AT 25ex achieved natural, smooth and organic sound coherently., and besides, it attains wide frequency range from 800 Hz to 20 KHz.

AT 25ex has a abiliy which can impress even a fading lingering of the sound.

### AT 25ex specification

Music power: 40 W / outer dimension: 70 mm / Fixing hole diameter: 44 mm / Installing depth: 49 mm  
 Frequency range: 800 ~20 KHz / Impedance: 6 ohm

Frequency response curve (\* This data was not measured in car.)
